RECEIVED

MAY 21 2004

GROUP 3600

09/554,464; your Notice A and C of Non-Compliant Amendments, mailed 04/21/2004  
My phone call on April 29, 04  
My ref. PAT6C

Dear Mrs Byars,

2004-05-03

My submittal of Aug. 8 (12), 2003 contained two clean versions of the Specification and

- all the Claims with reference numbers in single and double space, *for all of which*, amended pursuant to the OAS (Office Action Summary of June 2, 2003), *you were looking*;
- the amended Claims without reference numbers in space;
- a marked-up version of the Specification and Claims and the Abstract.

In regard with the Notice A and C you have *already* received

1. two listings of Claims in single and double space and
2. a marked-up version of the Claims, in which the Claims 1 to 51 are denoted by (currently amended) and the Claim 52 is denoted by (cancelled), replaced by (new).

If you read the OAS pp. 3 to 4, *all the Claims* have to be amended due to the errors, listed therein, and missing the antecedent basis. *All of the Claims have to be amended!!* Logically, you can *never* find the status (*original*) for which you have been looking as you mentioned in the Notice C as well as during our discussion.

Due to amendments in Cross Reference, Field of Invention, Summary of the Invention etc. I submit to you for your convenience three versions with footnote G-US 010504, G-US 010504 2-space and G-SPE 010504. Please forward them to Mr. Anthony D. Barfield from Art Unit 3636.

In sake of clarity references in the Claims are denoted by reference numbers, exemplified in US Re 34,051 (4,919,488) and US 6,145,881.

Please don't hesitate to phone me or send me a facsimile if you need help.

Thank you in advance.

kind regards

Go

*Giok Djien Go*
